HOUSE RESOLUTIONS

The following resolutions were offered and placed in the Committee on Rules.

HOUSE RESOLUTION 1322

Offered by Representative Soto:

WHEREAS, During the 97th General Assembly, House Resolution 814 created the Task Force on Railroad and Bridge Infrastructure to conduct in-depth research to identify the railroad tracks and bridges that are in need of repair so that the necessary infrastructure repairs can be done, and to report its findings to the House of Representatives on or before December 31, 2013; and

WHEREAS, The Executive Director of the Illinois Commerce Commission or his or her designee should be included as a member of the Task Force because the Illinois Commerce Commission, instead of the Illinois Department of Transportation, will provide staffing support for the Task Force; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that the Executive Director of the Illinois Commerce Commission or his or her designee shall serve as a member of the Task Force on Railroad and Bridge Infrastructure; and be it further

RESOLVED, That, instead of the Illinois Secretary of Transportation, the Speaker of the Illinois House of Representatives or his or her designee shall serve as the chair of the Task Force; and be it further

RESOLVED, That, instead of the Illinois Department of Transportation, the Illinois Commerce Commission shall provide staffing support to the Task Force and shall administer and prepare all reports deemed necessary in conjunction with the Task Force; and be it further

RESOLVED, That with these changes, the Task Force on Railroad and Bridge Infrastructure shall continue to operate pursuant to House Resolution 814 of the 97th General Assembly.

HOUSE RESOLUTION 1330

Offered by Representative Dugan:

WHEREAS, The State of Illinois comprises part of the largest urban landscape market in the country with more than 4 million ash trees total; our tree canopy now faces a crisis due to the emerald ash borer that will lead to a financial crisis for the State and its many municipalities; and

WHEREAS, Mature trees provide homeowners and municipalities tremendous environmental and economic benefits; trees reduce energy costs in the summer, play a role in rainwater management, and filter air; trees represent quantifiable value to homeowners; conservatively, five percent of a home's value is attributable to the trees on its property; and

WHEREAS, The State of Illinois is now infested with the invasive species known as the emerald ash borer (EAB); 100% of all ash trees in the State of Illinois will be exposed to the EAB in the next five years and every ash tree not treated will expire shortly thereafter; and

WHEREAS, The average cost of tree removal and replacement in the State of Illinois is approximately \$1,000; this crisis will cost the State and its villages, towns, and cities \$3 billion to \$4 billion over the next several years; and

WHEREAS, Trees can be treated for a fraction of the cost of removal and replacement; and

WHEREAS, The State of Illinois needs to update its understanding of the science of treating EAB, as integrated management of the EAB has evolved and improved greatly in the past five years; and

WHEREAS, Leading academic researchers from The University of Illinois, Michigan State University, Purdue University, and Ohio State have found insecticide treatment methods to be effective, and one treatment method to be more than 95% effective at preserving ash trees; and

WHEREAS, The Society of Municipal Arborists (SMA), the prestigious professional organization of practicing arborists, published in May 2012 its latest findings and recommendations on management of the emerald ash borer; the SMA paper warns municipalities of a "financial tsunami" if they are not proactive and develop an EAB management paper; and

WHEREAS, The SMA found that the two extremes of removing trees and doing nothing is neither practical nor prudent; removing trees is not financially viable for many municipalities and does great harm to home values; doing nothing puts people and property at great risk as dead trees will come crashing down in an unpredictable fashion; and

WHEREAS, The SMA found that an integrated approach that utilizes treatment along with the removal of low-grade ash trees is the best management option; and

WHEREAS, The International Society Arboriculture, the premier tree care organization in the world, supports the findings and recommendations of the SMA that advocates conservation of the urban ash canopy as the most prudent and practical management option; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we urge every village, town, and city within the State of Illinois to reevaluate its EAB management plan in light of the latest facts and recommendations presented by the leading experts in Spring of 2012; specifically, municipalities should spend the little time required to evaluate EAB management options over a 20-year period utilizing readily available and online economic models from either The University of Wisconsin-Stevens Point or Purdue University; and be it further

RESOLVED, That the Illinois Department of Agriculture should publicly communicate and include on its website, <http://www.agr.state.il.us>, the 2012 EAB Management approach and explain the financial and environmental benefits to municipalities, citizens, and homeowners of that same approach.
